NaturaExtracta®

Next keys for a healthy life

NaturaExtracta® was born in 2005 as a part of **Arancia Industrial**, with the purpose of extracting functional components and active molecules from local plant-based raw materials to simplify the product formulation process for our clients in the sauce, condiments and vegetable preserves industry in first instance, and for the general food, beverage and supplements industry as a whole.

Therefore, our philosophy promotes an **innovative** dthinking which starts with our organizational structure and ends up with our **value offer** to the market. This is displayed in full in our Business Model and our company's strategies.

Certifications

We are committed to the **quality y food safety** in each of our processes.

Our company was certified in 2018 by all the stakeholders and the public in general as a committed voluntary organization and with a **socially responsible** management as a part of its business culture and strategy, by obtaining its **first ESR® Certification**.

NaturaExtracta® is recognized as one of the **Top Mexican Companies**. This certification recognizes the medium-size Mexican private companies for their high performance in **business management**, being also a platform to expose, recognize and foster business best practices.

 **FSSC 22000**

Endemic Extracts

These aromatic herbs and spices used by our ancestors have transcended the culinary boundaries around the world thanks to their unique notes, adding delicious flavors in every cuisine.

Epazote

Epazote is an endemic aromatic herb, mainly used in Mexican cuisine. **NaturaExtracta®** has it available as an oleoresin.

Mexican Oregano

Compared to its Mediterranean counterpart, Mexican oregano has a more intense flavor, with light citric notes and a slight sweet flavor. **NaturaExtracta®** captures its aromatic notes by transforming it into an oleoresin.

Mexican Allspice

NaturaExtracta® obtains this produce from the northern part of the Sierra de Puebla and, through an extraction process, all the aromatic, herbal and sweet flavors from this variety of spice give an innovative and unique flavor to any palate.

Applications:

Seasoning, condiments and dressings

Liquid or powdered salsas

NEXTSAVOUR

Fruit and Vegetable Extracts

By using top-of-the-art extraction technologies, **NaturaExtracta®** gathers the best fruits and vegetables around the country to bring their delicious and irresistible flavors as an extract.

Tomato

NaturaExtracta® selects the “top of the crop” in Mexico and carefully processes every single fruit to capture the characteristic fresh, acid and sweet notes of this delicious produce on its extract.

Red bell pepper

Its sweet and fresh notes are captured by **NaturaExtracta®** on its soft extract, all after a careful selection process in the country and guaranteeing the highest sensorial and food-safety standards.

Green bell pepper

During the extraction process of this produce, everybody gets hungry. It's lunch time! This ingredient is extremely popular for soups and similar dishes.

Cherry tomato

Compared to regular-sized tomato, cherry tomato has a sweeter flavor with a subtle balance between fresh and acidic notes.

NEXTWELLTIVE

**Krill Oil
Superbakrill™**

Lipid krill extract, source of omega-3 (DHA and EPA) as phospholipids and astaxanthin.

Cardiovascular

Reduces the risk of cardiovascular diseases by reducing blood triglyceride and cholesterol counts.

Cognitive

The phospholipids of this oil help transporting DHA to the brain, a key element for cerebral health.

Joints

The fatty omega-3 acids have been proven to be effective as anti-inflammatory agents over the body, reducing the joint pain.⁶

Sports

Increases the performance and stamina during exercise. It has been clinically proven to increase muscle recovery after working out.

Women's health

It brings significant benefits for reducing the symptoms of premenstrual syndrome. It also brings cosmetic benefits by improving the hydration and elasticity of the skin.

Applications:

Nutritional supplements

Animal and pet food

NEXTWELLTIVE

Phosphatidilserine
Sharp•PS®

A natural phospholipid obtained from the soy or sunflower lecithin, which is a fundamental component of cellular membranes. This product provides a variety of biological benefits, predominantly over the nervous system.

Cognitive

The phospholipids of this oil help transporting DHA to the brain, a key element for cerebral health.

Mood

Improves the mood by reducing cortisol, the so called "stress hormone"

Sports

Increases the performance and stamina during exercise. It has been clinically proven to increase muscle recovery after working out.

Applications:

Nutritional supplements

Animal and pet food

Cosmetics and personal care

Functional foods and beverages

Pharmaceutical

NEXTWELLTIVE

Vitamin K2
MenaQ7®

MenaQ7®
Vitamin K2 as MK-7

Vitamin K2 in the form of Menaquinone-7 (MK-7): clinically proven and patented product, brings high-quality benefits over the cardiovascular and bone health. Available in different levels of concentration and presentations.

NattoPharma®

Cardiovascular

Clinically proven to reduce cardiovascular risks by avoiding the accumulation of calcium and arterial hardness, both age-related.

Bone

By effectively absorbing calcium, this product encourages the growth and hardness of bones at early ages, and avoids the aging-related problems and risks of contracting osteoporosis, particularly in women.

Applications:

Nutritional supplements

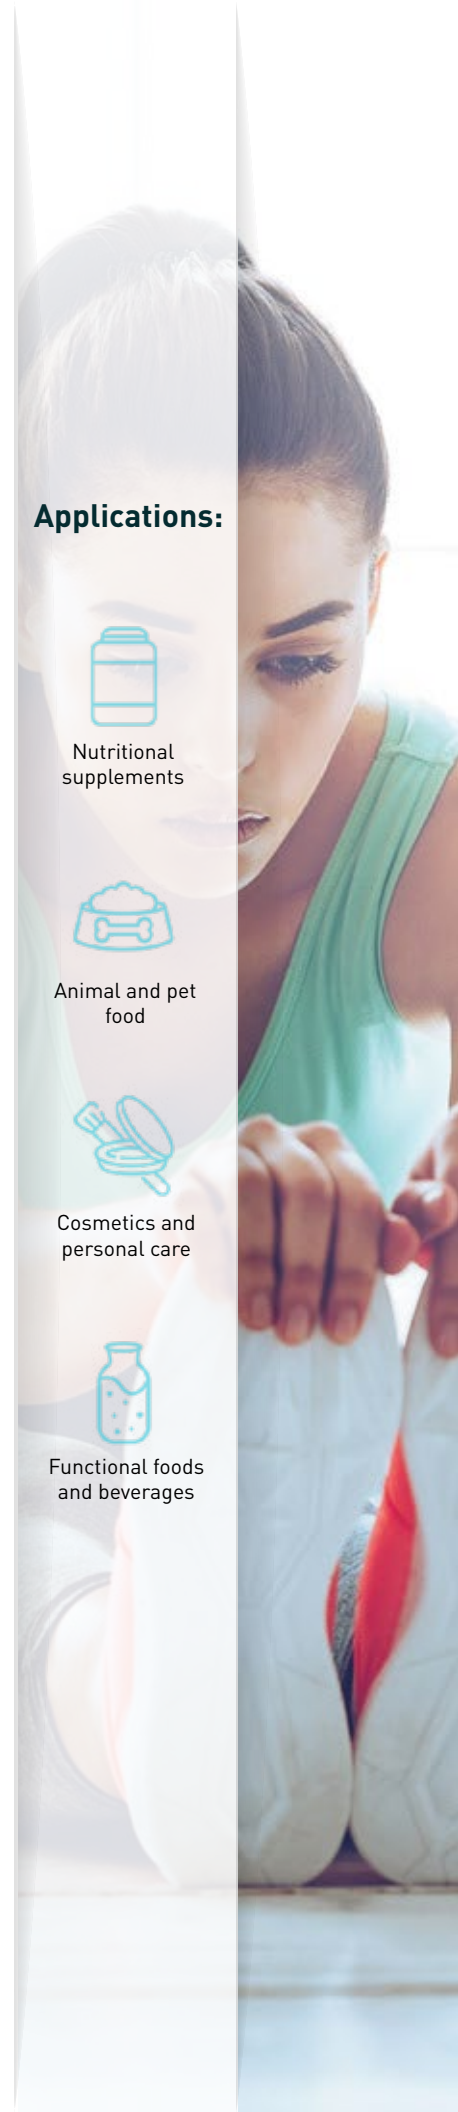

Animal and pet food

Cosmetics and personal care

Functional foods and beverages

NEXTWELLTIVE

Astaxanthin
AstaPure®

AstaPure®

Natural antioxidant carotenoid, extracted from a microalga (*Haematococcus pluvialis*), available in different concentration levels

Cardiovascular

It helps increase HDL cholesterol and decrease LDL cholesterol.

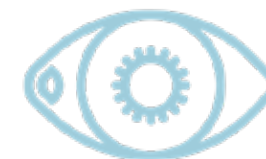

Cognitive

Prevents the oxidation of brain cells, creating an antioxidant balance

Skin care

With dermo-cosmetic repairing action, which protects the skin from the damages caused by UV rays, providing elasticity, texture and contents of skin humidity.

Eye healthcare

Improves the quality of vision by reducing the symptoms of eye fatigue and reducing the inflammation and rigidity of the ciliary muscle.

Applications:

Nutritional supplements

Animal and pet food

Cosmetics and personal care

Functional foods and beverages

NEXTWELLTIVE

Portusana
EFLA® 308

Portusana
EFLA 308

Purslane extract, ideal for naturally reinforcing the normalization of blood glucose levels and appetite control.

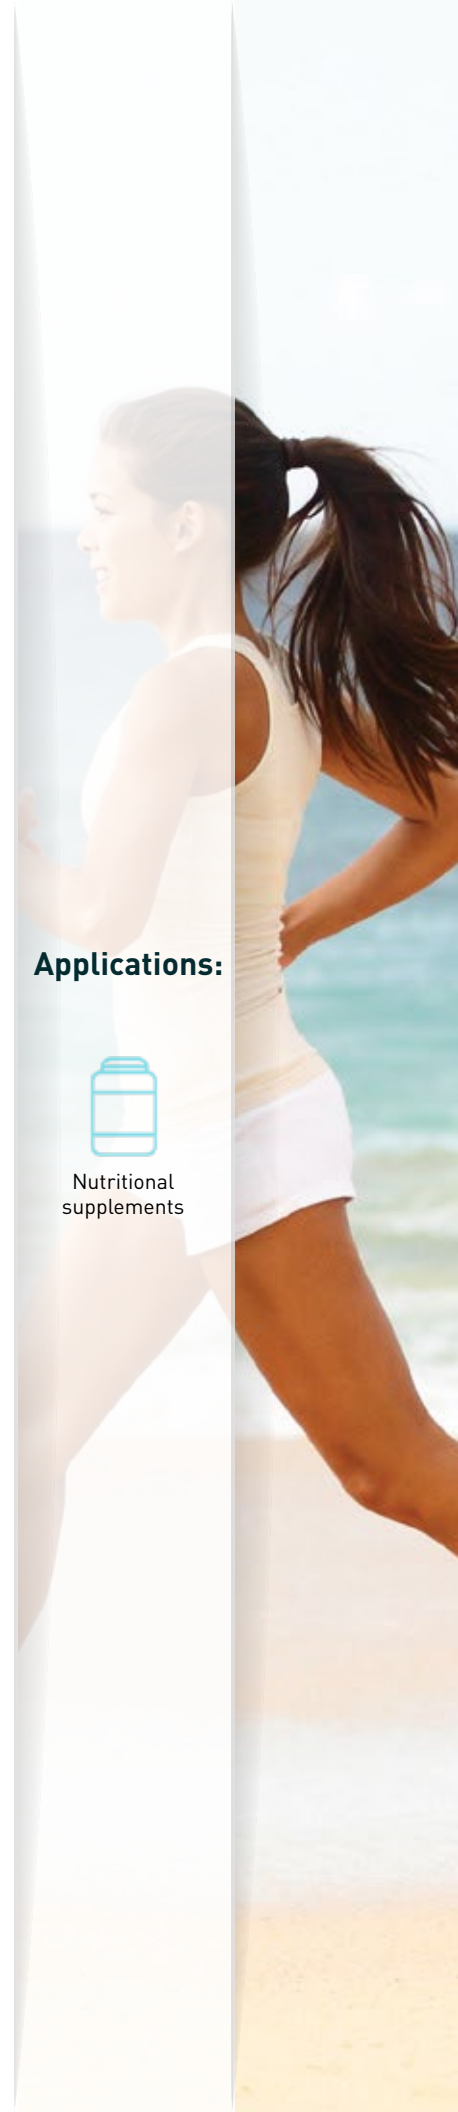

Cardiovascular

Helps on balancing the metabolism of blood glucose, since it reduces the glucose absorption from the intestine to the bloodstream, modulates the cellular insulin sensibility and increases the sequestration of bloodstream glucose into the cells.

Applications:

Nutritional
supplements

NEXTWELLTIVE

EstroG-100

EstroG-100
Quality of Life

Patented combination of herbal extracts that provides relief to menopause symptoms, without the estrogen effects.

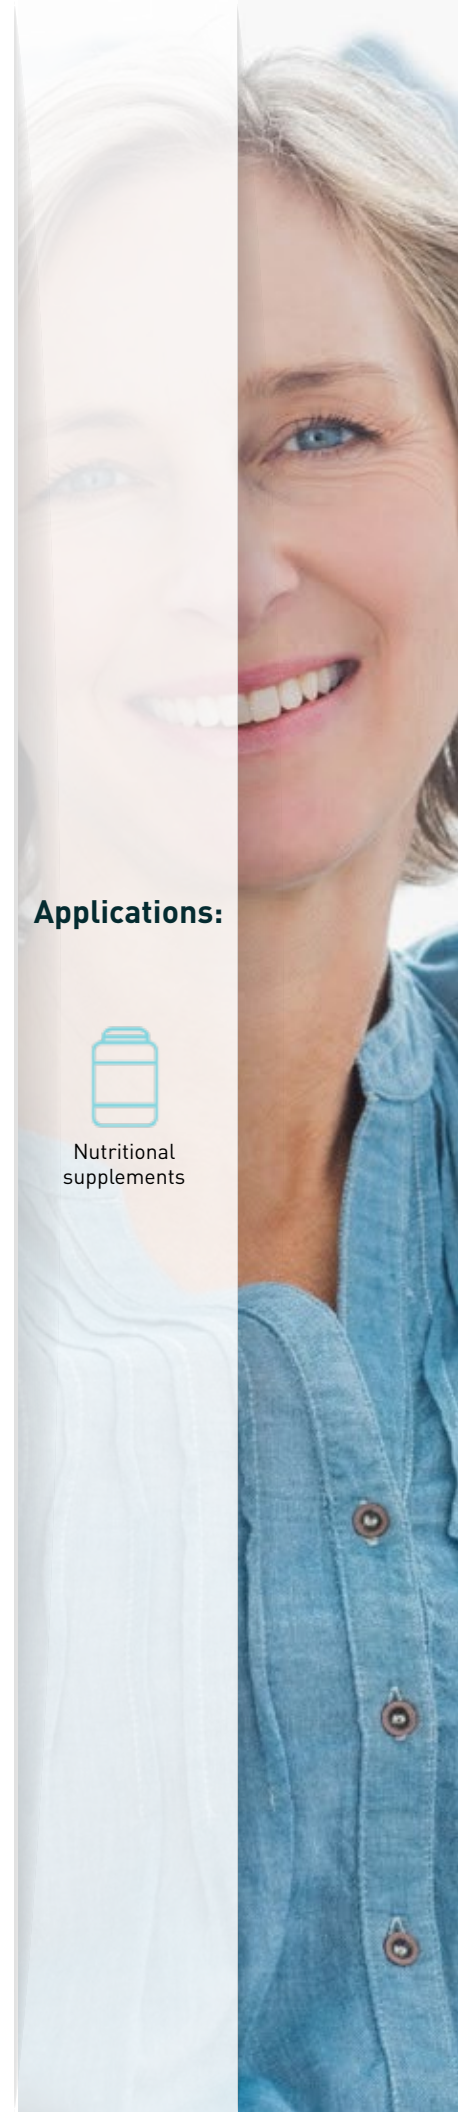

Women's health

Clinically proven efficiency, since it improves 10 out of 12 menopause symptoms in 62%, including profuse sweating, paresthesia, insomnia, nervousness, melancholy, vertigo, fatigue, rheumatic pains, tingling and vaginal dryness.

Applications:

Nutritional supplements

NEXTWELLTIVE

Micro-encapsulated iron
AB-FORTIS®

AB-FORTIS®

Micro-encapsulated iron salt, with no metallic taste nor adverse effects on the digestive tract; efficient and safe.

Intestinal

The usage of iron salt increases the bioavailability and reduces the most common adverse effects (constipation, diarrhea, pyrosis).

Cognitive

Promotes functions such as reasoning, learning and memory.

Women's health

Decreases fatigue, highly recommended on pre-natal development and fortification stages.

Applications:

Nutritional supplements

Functional foods and beverages

NEXTWELLTIVE

Liquid bioavailable curcumin
NovaSOL®

NovaSOL® Curcumin

Patented solution that increases in 185 times the bioavailability of the standard extract of curcumin.

Cardiovascular

Enhances and improves circulation.

Bone

Helps on decreasing inflammation, protects the connective tissue.

Antioxidants

Fights the oxidation of tissue, reducing the irritation and tearing.

Applications:

Nutritional supplements

Functional foods and beverages

NEXTWELLTIVE

Fucoxanthin
FucoVital®

Fucovital®

The first natural fucoxanthin, extracted from a microalga (phaeodactylum).

Liver health

Reduces the hepatic fat (non-alcoholic fatty liver), and encourages the gluconeogenesis (conversion of the liver's fat into energy)

Antioxidants

Powerful natural antioxidant

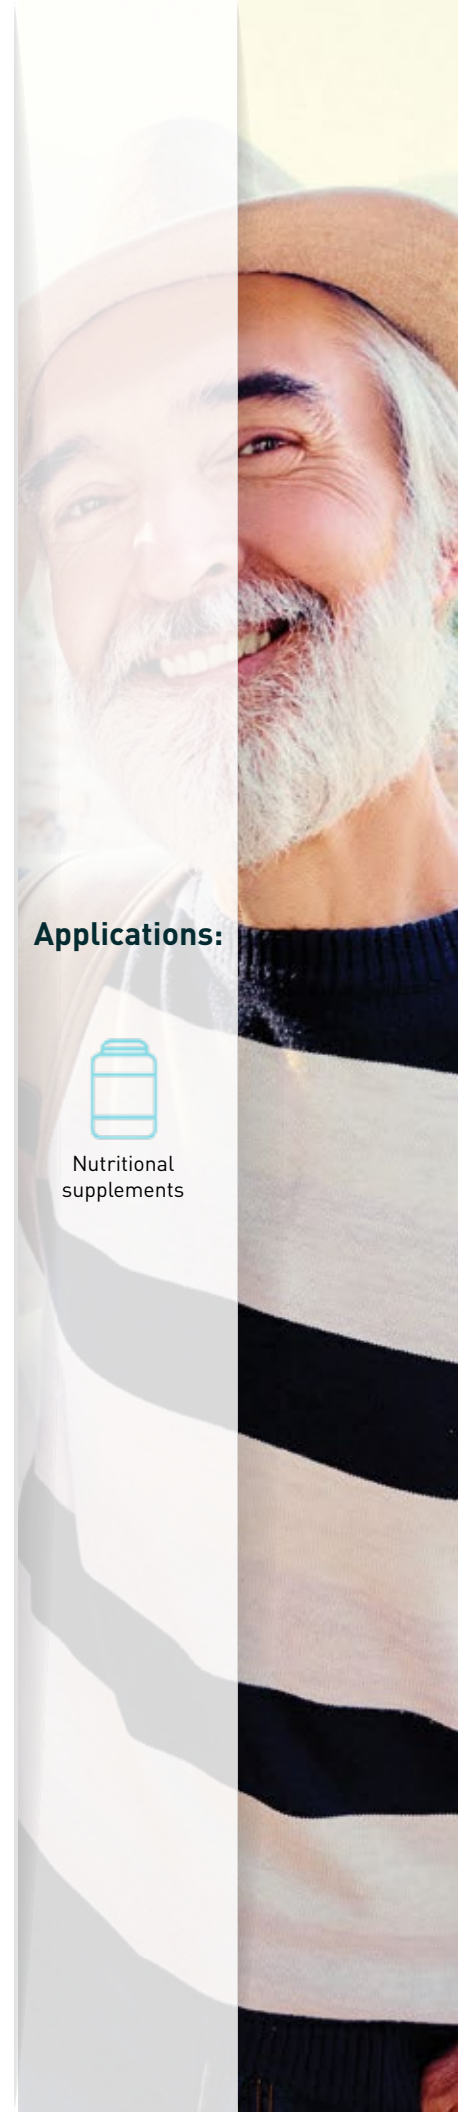

Glucose management

Helps the glucose liver metabolism, a metabolic syndrome related to obesity and a low glucose control.

Applications:

Nutritional supplements

NextwelltIVE

Oatmeal extract
Neuravena®

Neuravena
EFLA 955

Extract of an exclusive oatmeal variety (Sativa L), selected due to its powerful biological activity.

Cognitive

Cerebral booster, increases and promotes concentration, attention, alertness, verbal/visual memory and mind performance, with effects observed at the left frontal-temporal section of the brain.

Mood

Changes the cerebral activity during stressful situations, providing a state of relaxation and well-being.

Applications:

Nutritional supplements

Functional foods and beverages
